Exhibit B: GUIDELINES FOR SATELLITE TV INSTALLATION

Owner Responsibilities

1. Homeowner wishing to install a Satellite TV Dish must first submit a written letter of request to the Board of Directors through the Resident Manager.
2. If a tenant wishes to install Satellite TV, he or she must direct their request through the Homeowner or Property Manager, who will submit the request.
3. The necessary information to accompany the written letter is as following:
 - Panel brochure showing size of the dish.
 - Drawing of the wiring routes.
 - The location of the dish with in the Unit's Limited Common Area.
 - The approximate desired date of installation.
4. Please note, Satellite TV Dishes and or their associated hardware are not to be installed on "ANY" Common element property. This includes roofs, garage roofs, siding, across grass areas, etc.
5. Prior to the start of any installation, the Unit Owner will schedule an appointment with the Installer and the Resident Manager at the Unit, to explain the installation, wire routing, and equipment locations. 6. After the installation, the Resident Manager will inspect the installation to ensure it was completed within the MKM and FCC guidelines. If the installation is incorrect the Resident Manager will write a "Letter of Compliance", to which the Home Owner will comply and ensure the installation corrections are made to comply with the guidelines.
7. Please note, to prevent damage to the roof tiles, no entries onto the roof areas are permitted without prior consent of the Resident Manager.

I have read the guidelines above and agree to abide by the outlined guidelines:
